

PEDDAKOLIMI SUMANTH CHARY

AI-Native Builder & Full-Stack Product Developer

Hyderabad, Telangana, India

+91 8125228079 | hello@sumanthdev.me | [linkedin.com/in/sumanthchary](https://www.linkedin.com/in/sumanthchary) | sumanthdev.me | github.com/SumanthChary

Summary

AI-native builder and B.Tech CSE student who ships production AI products solo — using AI-accelerated development to go from idea to live product in weeks, not months. Founded and grew three AI-powered products end-to-end (two SaaS platforms, one consumer app): PostPro AI, LegalDeep AI, and FlipScan AI (rebranding to ReLoot AI). Also runs freelance web design and digital ad campaigns for healthcare and fashion/apparel clients across India. Researches AI daily using Perplexity, Claude, and Grok, and writes publicly about what he builds.

Education

Scient Institute of Technology

B.Tech in Computer Science Engineering

2025 – Present

Hyderabad, Telangana

Sri Chaitanya Junior College

2023 – 2025

Intermediate (MPC)

Hyderabad, Telangana

Coursework: Programming Fundamentals, Data Structures, DBMS, Operating Systems, Computer Networks, OOP

Experience

Founder, Indie AI Products

Sep 2024 – Present

Self-employed

Hyderabad, India

- Founded and solo-built **PostPro AI** (SaaS), an AI platform for LinkedIn content optimization with voice fingerprinting, virality prediction, and analytics — live at postproai.app
- Founded and built **LegalDeep AI** (SaaS), an AI legal document analyzer that summarizes contracts and flags risk clauses — currently facilitating its acquisition by a new operator
- Founded and solo-built **FlipScan AI** (consumer app — one of 3 apps built to date, currently active; soon rebranding to ReLoot AI), estimating resale prices for marketplace listings (eBay, Poshmark, Depop)
- Own the full product lifecycle across all three: UI/UX (Figma), development (React + AI-accelerated stack), prompt engineering, and growth marketing

Freelance Digital Marketer & Web Developer

2023 – Present

Self-employed

Telangana, India

- Manage digital ad campaigns across Google Ads, Meta, and India-specific platforms (Practo, Truecaller, ShareChat) for healthcare and fashion/apparel clients
- Design and build conversion-focused websites for small-business clients (service and fashion-retail businesses) using an AI-accelerated stack (Lovable, Netlify, Supabase)
- Run cold outreach (calls, email, DMs) to acquire new website and AI-agent clients across India and international markets

Selected Projects

flowmind-original

Automation

- Automation "brain" orchestrating multi-step workflows across tools — began as a hackathon build

aitradevision

Data

- Dashboard surfacing AI-generated market signals for trading and investment research

sky-story-maker

Experiment

- AI-powered storytelling tool generating original narratives from user prompts

airwrite

Experiment

- Computer-vision app that lets users draw in the air, tracked live via webcam

accessibility-hub

Tooling

- Accessibility toolkit built at a buildathon to support people with disabilities

16+ repos total spanning agents, automation, and experiments — full list on [GitHub](https://github.com)

Skills

Languages: Python, JavaScript, TypeScript, C, C++

Web & Mobile: React, HTML, CSS, Expo (mobile app builds), Browser Extension Development

AI & Automation: Prompt Engineering, AI-Native Product Development, LLM APIs (Claude, GPT, Gemini), AI Agent Workflows, AI Content Generation (video, graphics, animation), Daily AI Research (Perplexity, Claude, Grok)

Databases: SQL (mastered); exploring PostgreSQL & MongoDB

Content, Writing & Design: Technical/AI Writing, Storytelling, Video Editing, Graphic Design, Figma, Framer, Google Stitch

Growth & Marketing: SEO, GEO (Generative Engine Optimization), Google Ads, Meta Ads, Client Acquisition, Google Search Console & Analytics

Tools & Platforms: Git/GitHub, Supabase, Netlify, Vercel, Firebase, Replit, Lovable, Google Cloud

Currently Learning: Next.js, System Design, AWS, Java

Achievements & Extras

- Solo-founded and shipped 3 AI-powered products and 3 consumer apps end-to-end — design, prompt engineering, and go-to-market
- Currently facilitating the acquisition of LegalDeep AI by a new operator (LOI signed)
- Participated in 8 hackathons; shipped working prototypes in 20–30 day cycles
- Completed the Deloitte Australia Virtual Job Simulation (Forage, 2025)
